

Ali Yousefi

SENIOR FRONT-END DEVELOPER

Tehran, Iran • aliyousefi.a.29@gmail.com • + 98 (939) 698 5169 • <https://www.linkedin.com/in/ali-yousefi-02454b224/>

EXPERIENCED ANGULAR DEVELOPER WITH OVER SIX YEARS OF EXPERTISE IN DEVELOPING HIGH-PERFORMANCE WEB APPLICATIONS. SPECIALIZING IN PROJECTS RELATED TO MAPS, E-COMMERCE, CHAT APPLICATIONS, AND DRIVE-RELATED SOLUTIONS. PROVEN ABILITY TO DELIVER COMPLEX, SCALABLE SOLUTIONS WHILE COLLABORATING IN CROSS-FUNCTIONAL TEAMS. CURRENTLY EMPLOYED AS A SENIOR FRONT-END DEVELOPER, ACTIVELY CONTRIBUTING TO ANGULAR-BASED PROJECTS AND CONSISTENTLY ENHANCING MY SKILLS. PASSIONATE ABOUT EXPLORING NEW OPPORTUNITIES AND TAKING MY CAREER TO THE NEXT LEVEL. SEEKING A CHALLENGING ROLE IN ANGULAR DEVELOPMENT WHERE I CAN APPLY MY EXPERIENCE, CONTINUE TO GROW, AND COLLABORATE WITH LIKE-MINDED PROFESSIONALS IN THE FRONT-END DEVELOPMENT COMMUNITY.

SKILLS

ANGULAR, ANGULAR MATERIAL, PRIMEANG, TYPESCRIPT, JAVASCRIPT, HTML, CSS, SCSS, BOOTSTRAP, TAILWIND, NGRX, RXJS, RESTFULL API, OPENLAYERS, HIGHCHART, SOCKET, GIT, JIRA, TFS, BITBUCKET, SIGNALR, GRAPHQL, NX, LEFLETT, AG GRID

EXPERIENCE

SHAYEGAN TADBIR PARSIAN

THERAN,

IRAN

Senior Angular Developer . Full-Time

2022-present

- While working at a company specializing in apartment charge management, I focused on Angular development. I successfully designed and implemented an online chat feature for the application, streamlining communication and enhancing user experience. Additionally, I managed apartment requests and leveraged technologies such as WebSocket, GraphQL, SignalR, and Nx to optimize the app's performance and scalability.
- Developed and maintained SharjBook software, which manages building charges for over 50,000 buildings, offering features like viewing resident bills, online charge payments, and more.
- Focused on the development of an integrated messaging system within the software, utilizing SignalR for real-time communication, enhancing user experience and streamlining communication between residents and building management.
- Designed and implemented a comprehensive management system for communal areas (shared spaces), optimizing operations and improving resource allocation within buildings.
- Developed and integrated various systems and subsystems for the ****Momiiz Comprehensive Software****, including sales, accounting, inventory, treasury, and more. My focus was on the integration of the following modules:
 - - Sales System
 - - Customer Relationship Management (CRM) System
 - - Human Resources and Payroll System
 - - Financial, Budgeting, and Costing Systems
 - - Inventory Management System
 - - Procurement System
 - - Production Planning System
 - - Treasury System
- This integration streamlined operations, improved data flow between departments, and enhanced overall business efficiency.

- I developed a transportation or online delivery management software system. This system streamlines the logistics and delivery process, enhancing efficiency and ensuring real-time tracking, optimized routes, and seamless communication between customers and drivers.
- Spearheaded the successful migration of a complex Angular 8 application to the latest Angular (v16), resulting in a 50% performance improvement and enhanced maintainability.

RASAD

THERAN, IRAN

Mid-level Angular Developer . Full-Time

2019 - 2022

- Implemented an interactive GIS data visualization module utilizing HighCharts. This module empowers users to gain valuable insights from spatial data through custom charts, enhancing decision-making capabilities.
- Led the development of a collaborative GIS data collection module, inspired by Git. This module efficiently allocates tasks among users, designating specific areas for feature collection and responsibility, ultimately enriching the spatial data layer with robust and comprehensive information.
- Implemented an interactive GIS data visualization module utilizing HighCharts. This module empowers users to gain valuable insights from spatial data through custom charts, enhancing decision-making capabilities.
- Implemented robust security measures. This includes securely storing tokens in session storage and utilizing a master-slave method for secure token sharing across tabs, prioritizing user data protection.
- Championed reusability and responsiveness using the Atomic Design methodology. This approach significantly accelerated project development and ensured consistent UI across components, enhancing maintainability and user experience.
- Collaborated in Develop a user-friendly file storage module akin to Google Drive. This module provides efficient file management capabilities, enhancing user productivity and workflow collaboration.
- Extended the project's global reach by implementing multi-language support (3 languages) using NGX-Translate. This fosters inclusivity and caters to a wider audience.
- Elevated user experience by offering various customizable themes built with Angular Material . This empowers users to personalize their interaction and preferences within the platform.
- Developed dynamic web applications using Angular, enhancing user experience and interface responsiveness.
- Collaborated with cross-functional teams to design and implement RESTful APIs, improving data retrieval and manipulation.
- Optimized application performance by implementing lazy loading and efficient state management solutions.
- Conducted thorough testing and debugging of Angular applications, achieving a 95% reduction in reported user issues.
- Mentored junior developers in Angular best practices, resulting in improved team productivity and code quality.

EDUCATION

BACHELOR OF COMPUTER

BRANCH: SOFTWARE ENGINEERING

INSTITUTE/UNIVERSITY: AZAD UNIVERSITY

HAMADAN, IRAN
